Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,5,7-8,10-14,16-19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hourwich (975,953).

Hourwich shows guide 12, carriage 15, means 17 to support the aircraft, transmission coupling cable 32 plus pulleys 23 etc. and energy reservoir the weight.

1. Claims 1-5,7-14,16-22,24-28,30-50 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Heinkel (1960264).

Heinkel shows an extendable guide 1+20, energy reservoir 60, transmission means cable and pulleys that accelerates carriage at different rates due to arrangement of pulleys.

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6, 15, 23,29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant has claimed a launching system and in the above claims presents a recovery line that is not properly correlated to the claimed launching system.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 6, 15, 23,29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Heinkel (1960264).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to merely attach a line to the device of Heinkel as it is well known to merely hang a line on any object and the claims are not properly correlated to define over any line hanging on the frame of Heinkel.

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
